About Me

An enthusiastic and creative IT Engineering student with practical experience in AI, digital marketing, and website development. I specialize in designing responsive websites, working on real-world AI-based projects, and growing brands through smart digital strategies. Passionate about bridging technology and creativity, I'm currently expanding my backend and full-stack development skills through hands-on training.

Skills

- HTML, CSS, Bootstrap, JavaScript, Python, Flask
- Website Development
- AI Concepts & Applications
- Digital Marketing & SEO
- Canva, Figma, Google Ads, Meta Ads
- Communication & Team Collaboration
- MongoDB, Backend Integration (Basic)

Education

Bachelor of Engineering (Information Technology)

Savitribai Phule Pune University

2023-2027

Currently pursuing second year in IT Engineering with strong focus on core subjects like Data Structures, Web Development, Python Programming, Artificial Intelligence, and Database Systems. Actively involved in real-world projects and internships to apply technical knowledge and enhance professional skills.

Higher Secondary Certificate (12th Science)

Savitribai Phule Pune University

2022

Secured 64.17%, ranked 2nd in the college.

Specialized in Science with Information Technology as an elective. Built strong fundamentals in Mathematics, Physics, Chemistry, and Computer Applications.
